The tract is computed at

Virginia Legislature.

HOUSE OF DELEGATES.

Thursday Nov. 21.

Mr. Hay gave notice that on Monday next he should call up the bill relative to the suspension of bank payments by the banks. He could not call it up sooner, as he wished the members to have an opportunity of reflecting very maturely on the effect of the proviso attached—[viz. the banks discharging their notes under 5 on or before the 10th of January]

Mr. Mercer, of S. presented a petition from certain citizens of Fredericksburg praying to be incorporated for the purpose of managing the concerns of a bridge which they had built over the Rappahannock river.

Mr. Tazewell, from the select committee on that subject, reported the following very interesting resolutions:

The select committee, to whom were referred sundry petitions praying for the establishment of banks in different parts of this commonwealth, and to whom were also referred several resolutions of the house, directing an enquiry to be made as to the expediency of establishing banks in other parts of this commonwealth, not named in the said petitions, have, according to order, had under their consideration the said petitions and resolutions to them referred; and being of opinion that it was better in the first instance, to submit to the consideration of the house certain general principles, the sanction or rejection of which would be decisive of the fate of all the said petitions and resolutions, rather than to enter into detailed statements, applicable to the case of each particular petition, beg leave to report in part, the following resolutions as expressive of the opinions of this committee upon the subject to them referred.

1. Resolved as the opinion of this committee, that it be expedient to augment the number of banks in this commonwealth; provided, the additional banks be properly located.

2. Resolved, as the opinion of this committee, that each augmentation be effected by establishing an independent bank in each of the following places, viz.

3. Resolved, as the opinion of this committee, that each of the said banks shall be required to pay specie in discharge of its notes, from the commencement of its operations and at all times thereafter, under such penalties and provisions as shall enforce a compliance with this requisition.

4. Resolved, as the opinion of this committee, that as a premium or bonus for the establishment of each of the said banks, the commonwealth shall be entitled to per cent. upon the stock thereof, to be paid in stock by an annual deduction of per cent from the dividend of the private stockholders of each of the said banks.

5. Resolved, as the opinion of this committee, that in order, more effectually to protect the interest of the commonwealth in each of the said banks, the commonwealth shall be entitled to elect in such manner as the general assembly may provide, so many directors of each bank as shall bear to the whole number of directors thereof, the same proportion which the shares of the commonwealth in the stock of the said bank bear to the whole amount of the capital stock thereof.

6. Resolved, as the opinion of this committee, that the executive upon being informed by oath, or affirmation, that any of the banks aforesaid is mismanaged may appoint one or more discreet commissioners to examine and to report to them the actual condition of such bank and the truth and falsehood of the charges alledged against such bank—That the said commissioners shall have power to enter the banking-house of any such bank for the purpose of examinig its books and documents and the quantity of specie in its vaults, and that for the purpose of more effectually investigating the facts aforesaid, the said commissioners may examine, on oath, the president cashier, or clerk, or any director, officer, or agent, of such bank.

7. Resolved, as the opinion of this committee, that each of the said banks shall annually report to the executive a complete statement of its actual condition, shewing the amount of its capital stock, its annual dividend, its specie, its bills discounted, its notes in circulation, its deposits and what ever else in the judgment of the executive may be calculated to illustrate the actual condition of such bank.

8. Resolved as the opinion of this committee, that for any violation of the charter of either of the said banks, any director or directors thereof, committing or concuring in such violation, shall be responsible in his or their private fortune to the commonwealth, or to any corporation or individual aggrieved by such violation.

On motion, these were ordered to be committed to a committe of the whole on the state of the commonwealth—as well as to be printed.

A motion was made by Mr. Hay, for leave to bring in a bill to repeal an Act of the last session for refunding a sum of money, ($ 96) to one Mc Cawsland, upon the ground that such money had never been paid by him into the state treasury. This motion gave rise to a very animated Debate on certain incidental points. Finally leave was given.—

Charleston, Nov. 18.

Late from the Spanish Main.

By the arrival on Saturday last of the schr. Sarah and Hannah, capt. Croft, from Laguira, we are put in possession of verbal and printed accounts, relative to the revolutionary operations in that country, down to the 21st ult. The contradictory statements of the two parties, rendered it next to impossible to form a correct opinion as to the real condition of affairs: but persons of information and judgment, all agreed that the Royal cause was tottering, and must shortly fall, never to rise again. The Royalists still held out in Cumana, but had been so much distressed for provision, as to kill their horses and mules for subsistence. They were still in possession of a part of the Island of Margaritta also, where the same scarcity prevailed. The Patriot forces had gained foothold in Barcelona, Barapano and Oronoko. A verbal report prevailed at Laguira, that the Independent army, assembled in the vicinities of Barcelona and Cumana, was estimated at near 10,000 men: whilst the Royalists, under Morales, only umbered about 2000.

A gentleman who came passenger in the above vessel, politely favored the Editors with a file of Caraccas Gazettes to the 17th ult. From one of them we have translated the official account of an engagement, between the Royal and Insurgent flotillas. As might be expected, the former claim the victory; but the passengers in the Sarah and Hannah state that it was much more decisive than they are willing to acknowledge. This translation will be found in a preceding colum.

Translated for the city Gazette.

OFFICIAL DISPATCHES.

From the commandant of the Royal fleet to the Captain General.

On the 30th of Sept. I received news by Seignior Don Josef Guerrero, Capt. of the Mantua, (whom I have already told your Excellency was blockading the Bay of Cerros,) that two large row gallies of the enemy hove in sight, having entered by the Bay of the Penon; he went to discover them with a small schooner, and his armed sloop. I instanly sent him the galley Resistenisa, sloop Invinsible, and two small vessels which were in the port. I demanded of the governor, a detachment of the infantry troops to embark on board the said vessel, short of hands: he furnished 82 men of (Barbastro,) with capt. Don Manuel Lebron, which Guerrero disposed of according to my orders, This small fleet reinforced by the Dencedor, went in pursuit of the enemy's row gallies, and met them in the Streight of Calsamaure. There were two large and one small one, the latter was taken by boarding on the 1st. and the others which made sail were followed and intercepted in Chiguana. Keeping them there all night. The galley Fernando was sent to acquaint me with their situation, and take a supply of provisions. I remitted six hundred rations, giving orders not to return without giving battle to the enemy: but they did not receive said supply, for on their arrival, the two others had been taken. Guerrero at day light began the fire, attacking them on three different points, to cut off all hopes of retreat; they defended themselves with their artillery, landed their men, and from shore made a terrible attack on our vessels; but with such bad aim, that we had not a single man wounded. The gallies were at last boarded, and those who were in them, threw themselves overboard, abandoning them. Our men went on shore in pursuit with Guerrero and Lebron, and found many dead and wounded. The enemy retired as far as Cariaco, and fired two alarm guns; and then our men took the sails and spars the enemy had landed, & anchored here this day at 12 o'clock. In the small galley was Col. Taldez, who saved himself by swimming to the shore, we took his papers, they are of very little importance, and I have remitted them to the governor. One of the gallies is of eighty oars, and mounted six pounders: the other very little less, and of the same metal, and the smaller of 20 oars, and 2 pounders. We found on board 200 reams of catridge paper, arms, powder, munition and oars: they carried away the muskets and small arms: I am repairing the vessels of the shot holes they received, and soon they will be ready.

Your excellency knows the importance of this victory over those forces which molested us considerably; will please also take notice of the valor of Guerrero, his zeal and love for the service, much more admirable, as he is covered with wounds, and only the desire of distinguishing himself, enables him to endure fatigue. He recommends capt. Don Manuel Lebron, who, with his company and good understanding, in executing his orders, decided the victory. He also recommends Don Vicente Pedroza, capt. of the sloop, and generally the captains, sailors, &c. who, with undaunted courage, boarded the enemy, and would have followed them even to Cariaco. I thus highly recommend them to your excellency, to show to the low bred Insurgents, that the division I command, are full of love, for their Sovereign.

JOSEF MARIA CHACON.
Signior Don Salvador Maxo.

Cumana, October 3.

Yesterday at 8, A. M. two enemy row gallies hove in sight to the windward of Bordones. I immediately ordered the schooner Providencia, Guarria, the sloop Invincible, and two row gallies to give them chase. I joined to this force the launch of the sloop of war with 35 men, under the orders of Lieut. Don Josef Figueroa, and gave the command of the division to Don Rafael Diaz, lieut. of a ship of the line, ordering him to cut off, with the schooners, the retreat of the enemy to the coast, whilst the other vessels would give battle. The result has been successful as I expected from the gallant officer charged with the expedition, and his brave followers. The enemy's gallies were taken. In close to your excellency the details of Diaz, and of its circumstances, viz.—At 7, in the morning, I sailed, according to your orders, in the schooner Providencia, steering towards the coast of Bordones, to give chase to the enemy's gallies. Soon after the three others joined me, and I ordered on board the sloop four soldiers and a corporal; they followed with oars and sails, the enemy, who were ruging the coast in the direction of Santafe. Over the stern, we perceived the launch of the sloop war, and the schooner Salvarria at some distance we gave chase, all sails set, and our guns firing continually at the enemy, as in the Bay of Santafe. They anchored near the shore, and our vessels lay waiting for the schooner. As soon as she arrived, I came within canister shot and commenced the fire, ordering the sloops and gallies to follow the example, the expert fire of the schooner, and sloop Invincible, obliged the enemy to abandon their vessels leaving only the gunners, the balance forming themselves on shore.

As soon as I took notice of this movement, I ordered lieut. Don Andres Herrera, with 8 soldiers, to embark in the boat of the schooner, and take possession of one of the gallies: myself waiting for the arrival of the launch of the sloop of war, in which I intended to embark with the balance of the troops to go near the shore, and take possession of the enemy's vessels. The desire of fighting, which animated lieut. Herrera, did not allow him to wait for the arrival of the launch, which was near at hand. Animated with the same desire, Don Josef Maria Fingue oy made all force of oars to the enemy's vessels, to have the glory of boarding them the first.—The enemy from shore, protected by a detachment of 100 men made a terrible fire; but the intrepidity of my brave officers and troops, forced them from their post after great loss, as we could judge by the great quantity of blood, the enemy having carried away their dead.

They left in our power, the two gallies, perfectly equipped and full of provisions, 10 muskets, a quantity of balls and canister shot.

Our loss consisted of 6 men wounded, and the death of the brave commander of the galley Fernando VII, capt, Don Josef Lopez.

It is but justice to mention the brave conduct of all the men under my command. Lieut. Don Josef-Maria Figueroa, of the navy; Don Andres Herrera, of the troops, and Don Vicente Pedroza, of the militia, distinguished themselves particularly—we owe our victory to them.—*Also* the captain of militia, Don Josef Garisa: the boatswain of the launch, Manuel Rodriguez, who, though *wounded*, behaved with the same coolness; also, the artillery-man Manuel Bello, for his good aim, and bravery.

The schooner Salavarria could not partake of the glory of the day; her slow sailing not permitting her to arrive in time.

On board of schr. Providencia, in Cumana, 6th Oct. 1816.

RAFAEL DIAZ.

Signor Don Josef Mari Chacon.

I have to recommend to you, the widow of Lopez—enable her to obtain some relief for the support of her family, which ought to be lavished on those who shed their blood for their king. I leave to your consideration, the service of Diaz, who conquered the enemy. The five vessels of the enemy on our coast, are now in our possession.

Josef Maria Chacon.

COMMUNICATION.

In the National Intelligencer of the 19th is a paragraph of the editors of that paper headed "our relations with Russia," who say that "under the influence of Mr. Dashkoff's representations," some dissatisfaction had been created in the imperial government.

Whether these representations were as correct as those from our government, time will determine. This is not the first time that the statement of the Russian Minister has been questioned. His communication to the government of the offer of his Sovereigns meditation, between the United States and Great Britain was denied as being authorized, until it was proved by despatches from our Minister then at St. Petersburg. It certainly must be the sincere wish of every American "that this affair will be adjusted and that without delay" as it cannot be denied by any one that the present Emperor of Russia & his late Christian Majesty, Louis XVI. have given more proofs of friendship to America in the same time, than all the other crowned heads in Europe,

New York, Nov. 20.

The British Packet Nocten, Capt. Braily, arrived at this port this morning in 49 days from Falmouth, Eng. and 8 from Halifax. By this arrival, we have received our regular files of Falmouth and Halifax papers—the former to Oct. 6, and the latter to the 12th, inst.

The Halifax Journal of the 11th inst. announces the death at Barbadoes, of his Excellency, General Sir James Leith, G. C. B.

Major General, Ainsley, has arrived at Halifax, on his way to Cape Breton, to assume the chief command of that Island.

His Britannic Majesty's Consulate } Office, New York, 19th Nov. 1816 }

Notice is hereby given, that his Excellency Sir John Sherbrooke, Governor and Commander in Chief of his Majesty's Colonies in North America, has issued orders whereby the ports of St. John, on the River Richelieu and Chateauguay and Coteau du Lac, on the St. Lawrence have been opened for the admission from the U. States, free of duty, of flour, Indian meal, pork and beef, fresh and salted, and Hog's lard; and to continue so until the 31st day of Dec. next.

SIR—By giving the annexed notice & advice of the American consul at Liverpool, a place in your paper, you will much oblige A SUBSCRIBER.

Mr. Maury for the information of citizens of the United States coming to Britain, recommends that,

Previous to leaving the United States they take out a passport, which on arrival must be exhibited to the collector of customs of the port arrived at, who will grant a certificate of arrival, with which the alien is required to present himself at the alien office, Crown street, Westminster, within a week after reaching London: or within the same period, before the chief magistrate of any other town or district, where he may intend to reside a neglect of which will render him liable to one months imprisonment.

As this certificate of arrival is a very important document, Mr. Maury particularly recommends that it must be carefully kept, in order that, whenever the alien wish to leave the country, he may be enabled to produce it to the collector of customs of the port he shall embark at.

American Consulate, Liverpool, 30th August, 1816.

LORD EXMOUTH TO W. SHALER.

[Copy.]

Queen Charlotte, Bay of Algiers, 2d Sept. 1816.

SIR—Mr. M'Donnel having stated to me your extreme kindness and attention to him during the period of his cruel confinement by the Dey of Algiers, I feel it to be no more my inclination than my duty, as commander in chief of this fleet, to convey to you, in the name of my nation, as well as individually, my sincere acknowledgments for this proof of your friendly disposition.

I am also fully aware of the extent of your humanity towards the officers and men of his majesty's ship Prometheus, who were so unjustifiably detained and thrown into chains by this ferocious chief, inasmuch as you not only clothed them, but furnished them with money to relieve the cravings of hunger. Such acts of humane generosity ought not to be unrecorded, particularly when they were exercised at the risk of your personal safety; and it will be a gratification to me, to bring this circumstance before the view of his majesty's government in the light it merits.

I must request you will do me the favor to inform me of the expense you have been at, in alleviating the sufferings of my distressed countrymen, in order that I may repay you—and I shall at all times be ready to acknowledge to your country this act of benevolence.

I have the honor to be, etc. etc.

Signed, EXMOUTH.

WM. SHALER TO LD. EXMOUTH.

(Copy.)

Consulate General of the U. States. Algiers, 24th Sept. 1816.

SIR—I have the honor to acknowledge the receipt of the letter which your lordship did me the honor to address me this morning.

My regard for Mr. M'Donnel was sufficient to call into activity every thing within my power, to serve him and his family, in the critical situation in which they were placed; and I never doubted that in similar circumstances, my countrymen would have received from any British officer, situated as I was, the same relief which it was fortunately in my power to extend to the officers and boat's crew of his majesty's ship Prometheus, so unjustly detained here.

I avail myself of this occasion to assure your lordship, that in the case in question, my feelings concurred with what I considered to be my duty, and that I receive with great sensibility your very flattering approbation of what I have done.

The money advanced by me for the relief of the British officers and seamen detained here, amounts to one hundred dollars, which, if agreeable to your lordship, I will settle with Mr. M'Donnel.

With very great consideration and respect, I have the honor to be your lordship's most obedient humble servant.

[Signed] WM SHALER.

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to cary off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, (the basis of other lotions) and of unparralled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent inoxication or any other destructive intemperance the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.
